

# Choosing a Curriculum

 Presbyterian Church  
of Aotearoa New Zealand

## INTRODUCTION

There are MANY teaching materials, resources and materials available to churches – from a short series of lessons to a comprehensive 3 or 4 year plan, from free downloadable activity sheets to commercially printed materials for every child and age group.

So how do you decide what is right for the children of your church? It can be a daunting task to explore all the options available so Kids Friendly has done some research for you!

Our **“Choosing a Curriculum”** resource offers guidelines for choosing teaching resources and gives brief descriptions of some of the Christian education material available. Where possible we have also included comments, recommendations and tips from some of our experienced Children’s ministry leaders.

**Please email us with your suggestions.** Like all Kids Friendly resources, this will be an ever evolving document formed and transformed by you – the experts!

See also our ***Kids Friendly Sunday*** collection of resources which complement this resource:

- **A Kids Friendly welcome**
- **Kids Friendly Worship**
- **Planning a Kids Friendly children’s programme**
- **Praying with children**

### REMEMBER!

As you explore and gather information think about YOUR own childhood experiences of Christian nurture. What do you remember? What and who influenced you most? The stories and activities? The teachers and leaders?

**32% of Christians come to faith as children and can name the person who most influenced them.** (*Barna Group Research*)

### You are the curriculum!

More than any curriculum resource, children will ‘read’ us and respond to the welcome, friendship, teaching and encouragement we offer them.

*“Remember a curriculum is a valuable tool in the parish’s nurture of children, but no curriculum by itself can bring about sound and balanced Christian nurture. Christian nurture is so much more than an academic curriculum, but a good well-chosen curriculum offered as part of a wider parish effort to include children in the worship and life of the church, can be instrumental in fostering faith and awakening devotion and conscience as well as transmitting information.”* **Gretchen Wolff Pritchard**

### 4. Overview Table of Curriculum Choices

# 1. WHERE DO WE START?

## A. Vision and values

The vision, values and mission of your church will influence your choice of educational material. Many churches have developed vision and mission statements that describe who they are and how they will engage with God, one another and the community. This will have a bearing on the particular resources and programmes a church will favour e.g. a Kids Friendly church will hopefully consider how the curriculum could support the overall Kids Friendly Sunday experience including the children's time in the all age worship service.

It's well worth identifying the values of your church and your children's programme. Values are characteristics of your place and programme that are non-negotiables and easily detected by outsiders e.g. hospitality, fun, equality etc. Again, these will influence the kind of curriculum you may choose.

**The Kids Friendly Self Review** helps churches develop a strategic plan and define a vision, mission and values for ministry with children and families.

Please contact the Kids Friendly staff for more information, resources and coaching.

## B. Responsibility

The leadership team (including the minister, session/parish council and any ministry leaders) is responsible for all the ministries of your church including children's ministry. Sometimes this is delegated to a Christian Education or Children and Families Ministry committee. (Consider an appropriate name for this committee as well as its purpose. Children's ministry is SO much more than Christian Education) Ideally this group should be made up of the minister, one or two Session or parish council members, key children's leaders (paid and voluntary) and two or three congregation members with gifts and passion in the area of Children and Families ministry.

This committee will ideally meet regularly to support the leaders and the organisation of the ministry. They may also bring regular reports to Session/ Parish Council with recommendations for the recruitment and appointment of all children's workers (voluntary and paid) and also the approval of teaching materials, programmes and activities, as needed. This committee should also ensure the safety of its leaders and all children.

**The Kids Friendly Safety in Children's Ministry** resource offers guidelines, strategies and sample policies on all aspects of a church's responsibility towards children and leaders.

## Christian Education or Christian Nurture

*"The nurture of children within the church (or school) is commonly known as "Christian Education" and takes place almost exclusively through a structure known as the Sunday school (or RE class), which models itself on regular school. It's organised in classes, with teachers, who use curriculums, with lesson plans. It operates on the unspoken assumption that children must learn how to be Christians, in an academic setting, before they can actually begin to do any of the things that Christians normally do together in a community of faith: pray together, celebrate the sacraments, share their faith and their lives, cherish the hope of things unseen and bear witness in love and service in the world."* **Gretchen Wolff Pritchard.**  
**"Offering the gospel to children"**

### Discuss:

Does your church plan for children on the basis of education or nurture or both?

## C. Explore

### WHAT DO YOU HOPE YOUR CURRICULUM WILL HELP YOU ACHIEVE?

- Teach children the Bible?
- Develop their faith in God?
- Encourage children to live their daily lives in the light of the gospel?
- Transmit to them particular traditions and practices of the denomination?
- Incorporate them into the worship life of the parish?
- Support and resource parents to share faith at home?

## D. Gather information

Bring your vision and goals together with the practical information you need to make a decision. Brainstorm using these questions and considerations:

### CHILDREN AND LEADERS

- How many children do you have and what ages are they?
- What length of time do you have for your programme?
- Will children stay together (some of the time/all of the time?)
- Will they go into small groups related to their ages? (Some of the time/all of the time?)
- How many leaders do you have? (This can influence whether you break into small groups or not)
- Are there different goals for different groups?
- How much help do the teachers need? (Some like detailed instructions while others just need a basic outline)

- Do you have consistent leaders for at least a term at a time or is there a rotation of leaders/helpers over shorter periods?

## CHURCH TIME

- How are children included in the worship service?  
e.g. welcomed at the door, invited to the front, encouraged to contribute. (See **A Kids Friendly Sunday** resource for ideas.)
- Do children have a regular teaching time in church? (e.g. children's talk)
- Is it related to the sermon, service theme and Sunday School activities?
- Or is the time in church unrelated to their later learning activities?
- How and when do the children share their learning?

## ORGANISATION

- What is the budget for resources and staff/leaders?
- What spaces and rooms can be used?
- Is there a similar structure to the sessions each week? e.g. welcome, getting to know you, special announcements and celebrations, prayers, introducing the theme, reinforcing the theme in creative ways. (See **Planning a Kids Friendly Children's Programme** resource for ideas.)

Children love routine and a consistent structure is especially important if the children's leaders change.

### Creating a sacred space

*"It's important to create "sacred space" for kids – **place, space and time** for them to explore and express their faith in unscripted ways"*

**Pastor Greg Priebbenow**

*"To step across the threshold of the classroom is to a "place of imagining". A different language is spoken here. Relationships are attended to in careful and caring ways to promote a learning and use of that language to know God."*

**Jerome Berryman, Godly Play**

## CHOOSING YOUR CURRICULUM

- What choices of curriculum are available? **Use this resource to research!**
- Check out some of the websites listed, gather samples to view or trial.
- No one curriculum is going to be perfect match but is it easy to adapt the resource to meet your needs?
- Ask leaders in other churches what has worked for them. Read the comments from experienced leaders in this resource.
- How does the theology of the curriculum fit with the theology of your church?
- Does it use the Bible in chronological, liturgical (lectionary based) or theme based ways?
- Does the curriculum take into account the different learning styles of both children and leaders?

- Is there a good variety of activities to encourage children to wonder, explore and respond to God?

Remember children learn best with LOTS of activity, using ALL their senses within a structure where they are welcomed and loved.

## A Lived Christian faith

*"Curriculum should engage the present praxis of participants, bring them to reflect on it, teach the tradition with practical intent and invite a faith response that realises the values of God's reign in their lives and world."*

*Opportunities for living in Christian faith should be integrated into the curriculum rather than regarded as ancillary.*

*Much religious education is marked by the assumption that there is a direct correlation between religious knowledge and lived faith, that to impart knowledge about Christianity is adequate to promote Christian identity and agency.*

*Religious education for the lived Christian faith is an ontological enterprise that is to inform, form and transform people in heads, hearts and lifestyle."*

**Thomas H Groome**

### Discuss:

How does your ministry with children:  
**Inform, form, transform**  
their heads, hearts and lifestyle?

*"One looks back with appreciation to the brilliant teachers, but with gratitude to those who touched our human feeling."*

*Curriculum is necessary raw material, but warmth is the vital element for the growing plant and for the soul of the child."*

**Carl Jung, psychologist**

## 2. CURRICULUM CHOICES

### A. Lectionary Based Resources

Christian churches of several denominations in NZ use the Common Lectionary Revised (1992) as a Bible reading plan for covering the seasons of the church year (Advent, Christmas, Lent and Easter, Pentecost etc) and major Biblical themes and stories over a three year period. The following resources are based on this lectionary and can be very helpful for planning 'seamless learning' from the church service to children's group times. Families can also follow up their learning at home during the week.

#### 1. SEASONS OF THE SPIRIT

[www.seasonsonline.org.au](http://www.seasonsonline.org.au)

**Seasons ENCORE – age-level resources**  
**Seasons FUSION – for congregational life**

**Includes:** Seasons resources are offered in a choice of 3 formats: Print (ready to use), Disk (digital resources) and Web. There are also additional music, posters and website resources

**Suitable for:** Mix and match the resources to suit your church. (6 examples in catalogue and on website to help you decide) In **Seasons ENCORE** there are separate resources for Ages 3-5, 6-8, 9-11, 12-14, 15-18, adult, plus a Multi Age option (5-12 years)

**Seasons FUSION** resources help congregations who want to 'combine time, space, adults and children in worship, learning and serving together.' (All age worship resources including planning, Biblical background, 3 page worship outline, Bible story and poetry prose page, stations ideas and resource sheets)

*SEASONS OF THE SPIRIT* offers a very comprehensive set of resources for churches that follow the Lectionary. There are MANY extras in the printed material for leaders as well as full access to the website for more supporting resources and email advice.

**Available from:** The web format of product can only be ordered online at [www.seasonsonline.org.au](http://www.seasonsonline.org.au) (through MediaCom Education Inc)

**For Seasons PRINT and DISK orders and all enquiries,** the NZ agent is:

Each age group's year pack is around \$300, the Multi Age and Fusion packs are around \$600 each. It is cheaper to buy in disk format than print format and even cheaper for web orders. It is definitely worth ordering and paying before 31 August to receive the early order discount (about \$50 off each pack)

### What users say:

St John's in the City Wellington has used the Seasons of the Spirit curriculum for a number of years. In 2012 they had an average of 45 children (3-12 yrs) separated into 5 age groups. Anna Davis who leads **StJ's Kids** says:

- The Seasons curriculum follows the lectionary and thus provides a connection with the morning and evening worship services which also follow the lectionary.
- It has good theology with a social justice and care of the earth bent.
- It tends to offer flexible leading ideas that can be easily adapted to incorporate intergenerational and inter-age faith learning opportunities which suits us.
- It provides good background notes that offer insights that one wouldn't necessarily gain from simply reading the Bible passage. (Can be used as leaders' personal devotions)
- The core content is good but the graphics aren't that great so we often supplement them.
- The music supplied is limited so we're always looking for alternatives.
- There are take home ideas each week and extra faith@home resources (mainly during Lent and Advent) which can be downloaded from the website
- It's relatively easy to prepare lessons and there are lots of options for being extra creative.
- Maximum cost for us would be \$1200 per annum which includes music CDs and scores, wall posters and packs for 6 different age groups (3-12yr olds and congregational pack with worship suggestions)

St Mark's Pinehill, Dunedin has a smaller group of children aged 0-13yrs and use the Multi age pack. Benita Barton appreciates:

- That this curriculum follows the Christian year and offers extra articles, Bible reading notes and weekly tips via email for the leaders.
- You can't pick it up at the last minute and it does need quite a bit of preparation, but then I enjoy this and get a lot out of it
- I introduce the scripture in church and hope this year with more regular leadership we will use some of the ideas provided for all age worship services.
- The Congregational Life pack (Fusion) is excellent for churches where lay people take services.
- I photocopy some pages from this pack as take home readings for our small congregation.
- Data disks come with packs or can be purchased separately instead of printed packs but cost nearly as much. There are small videos on the disk.
- Music CDs are extra but written music copies come in the packs.
- It costs us about \$1000 a year and some people give extra especially towards these resources for our children.

### What users say:

Benita Barton at St Marks Pinehill has used the Living Stones books for a number of years and now owns the three year cycle of books in each age level:

- The format is the same at each level based on the same readings. There is a one page introduction with goals well set out and a photocopiable page.
- The activity sheets are particularly good for the 11-15yrs age
- I use ideas in these books to back up the Seasons of the Spirit resources
- Sometimes the activities follow one of the other lectionary readings.

Jill Kayser at St Heliers Presbyterian, Auckland: We used these when I was children's minister at St Heliers many moons ago. They were simple to use and our volunteer rostered leaders liked them because they were easy to understand with good age appropriate ideas.

### 3. SERMONS4KIDS

**Suitable for:** All ages together in church. Free activity sheets are easy to download and print. Set up a low table, crayons, felts, nice paper and activity sheets etc for children to work on during the sermon.

#### What users say:

- A number of ministers have commented that this site is very helpful in giving them an appropriate age related talk on the Lectionary theme.
- There is always a selection of activity sheets to choose from that relate to the Scripture.
- Easy to select and prepare.
- Kids Friendly suggests this website as a good source of activity sheets for activity packs prepared for those times when unexpected children arrive or when there is no children's programme being offered e.g. during holiday times.

For more ideas see **A Kids Friendly Welcome**

## 4. ROOTS on the web

[www.rootsontheweb.com](http://www.rootsontheweb.com)

This is a lectionary-based resource available in two bi-monthly magazines: Adults and All age; and Children and Young people with a huge library of supporting online materials.

Each issue of ROOTS magazine offers many ideas of ways to open the Bible with the appropriate groups, exploring one of the readings from the **Revised Common Lectionary** and relating it to everyday life. Both magazines have the same biblical focus so that they can work together.

**Each week the Children & Young People magazine provides:**

- an activity and a prayer to start your session
- a **storybook presentation** of the Bible reading
- simple starting points for exploring the meaning of the reading with children
- a **Bible study** for leaders and young people to work through together
- activities, prayers and craftwork related to the reading
- a prayer to close the session.

**The ROOTS resources are adaptable for many situations:**

- with a range of ages together or in age-banded groups
- for shorter or longer sessions
- in different locations – a well-equipped room, a vestry, a church hall, a school
- in weekly sessions or with groups who meet less often
- by the same leaders each time or by different people on a roster

**Cost:** Subscription to the magazine is required to access the online resources. Samples can be viewed on the website. 1-year subscription (six issues) is approximately \$100 (Adult and All Age magazine). \$120 (Children and Young People magazine) or both \$190.

## 5. CONNECTIBLE (STRANDZ)

**Connectible** is lectionary based material and ideas for each Sunday, created by the Anglican Dioceses of New Zealand. It is a FREE online curriculum for the whole Church

"Over the next year (2016) we will be moving the content from Storybox (old curriculum resource) onto the Connectible database, so it will all be in one place for you to use.

Connectible follows the Lectionary to help you easily find the resources that connect with a key Bible reference for each Sunday. Each week there are set of components that connect together. Use all of them or only a few. You can find resources by selecting the date or by search.

This is a resource sharing platform, so if you have good idea, share it!

**Cost:** \$20.99 for each *Light* teacher's manuals (4 per year) and \$5.99 per each child's corresponding activity magazine (optional).

#### What users say:

Calvin Community Church, Gore has about 50 children (0-11yrs) divided into three age groups for the approximately one hour children's programme each Sunday. Sandra Gow likes using the *Light* material:

- Its age appropriate across all the above age groupings, so we are all learning the same lesson.
- It doesn't fit with the church teaching though as our Pastors do their own topics for sermons.
- Preparation takes about an hour for most leaders. (I take the older children and often spend more time preparing the lesson because it doesn't always have enough creative fun ways to engage them.)
- There are 2 -3 options for every component of the lesson, so you can usually tailor it to suit your group.
- Every leader has a teacher's manual but I have not purchased the children's activity books as I think that would be too expensive.
- There are suggested songs for the lessons and you can purchase a music CD for this material. We start together with some upbeat songs (on DVD and often led by older children) before we divide into groups.

Flagstaff Community Church leaders Carolyn Sims and Ele Savage have used Light resources over a few years now with children aged 5- 12 years, fluctuating numbers (anything from 2 to 20) and have found it easy to use:

- Lots of ideas to choose from, easily tweaked – which we do a lot of.
- We do a link in church by sharing a bit on what we are teaching. Sometimes the congregation and children are learning the same thing – or you could make it happen like that. Go back through *Light* resources and find stories related to whatever the minister is teaching about.
- We buy one leaders manual at each level and mix and match a lesson according to the ages of children we have. The different books have the same session starting on the same page number which is helpful!
- Haven't bought the children's take home books –too \$\$\$ for us.
- LightLive (see below) although free can be hard to navigate. We still like a hard copy of the books to flick through.
- We have stopped using *Light* at the moment– had a bit of a 'same-ness' about it with similar stories coming up each year and other themes and stories that seemed to be missed out completely.
- Still access the on-line *LightLive* though to check what they have got on our current theme that we could use.
- *Light* would be good for someone who is just starting out teaching Sunday School – lots of choice and a supportive structure.

**Scripture Union** has a HUGE range of other resources to support ministry with children e.g. teacher resources on prayer, crafts, games, quizzes, Easter Christmas, Top Tip training booklets on many topics, Holiday Programmes, Bible reading at all age levels (preschool to adult) and more! See the online store for more details.

[www.scriptureunion.org.nz](http://www.scriptureunion.org.nz)

**Also, a multi-aged resource for Sunday mornings:**

### Mosaic

12 sessions suitable for a smaller number of children and a wide age range (3-14yrs) like many rural churches, small urban churches and new church plants.

**Cost:** \$22.99 per book.

## 2. LIGHTLIVE – Free online resources from SU

[www.scriptureunion.org.uk/Lightlive](http://www.scriptureunion.org.uk/Lightlive)

An amazing option, especially if you are computer savvy and are familiar with the *Light* material, is to access the same printed *Light* resources for **FREE**

You can access thousands of activities, follow the *LightLive* syllabus and create sessions in a matter of minutes, or you can create your own syllabus for your group. Just register on the LightLive website then log in

whenever you want resources.

Lawrence Presbyterian Church began with a small group of 4-6 children (preschool to 7yrs) which has been steadily growing. In late 2013 it is now often 12-15 children and 3 age groups. Christine Harrex has mastered the FREE *LightLive* resources:

- Its available online which means it's flexible and we can adapt it to specifically fit our needs. It works well for age related classes.
- The content has depth and the activities are varied and interesting with lots of choice.
- The children enjoy it and the teachers like teaching it. Everyone learns a lot together!
- Preparation time depends on the choices you make. There is so much to choose from! I spend 1 to 2 days preparing the lessons for three classes. This includes selecting activities, downloading resources, photocopying, sourcing equipment, preparing resources and setting up rooms.
- *Lightlive* (online) allows you to choose any series of lessons you like so it can fit your service theme if you want it to.
- It's amazing to have ALL these resources literally at my fingertips – from the UK to a small rural town in NZ for a voluntary donation once a year.

### 3. ON THE WAY

[www.tntministries.org.uk](http://www.tntministries.org.uk)

**Includes:** The three year syllabus consists of 14 books and covers the main Bible stories from Genesis to Acts with Christmas and Easter covered each year. There is also First Class (preschoolers) and On the Way 9-11s and On the Way 11-14s series of books.

**Suitable for:** a small group of children with a range of ages. One teacher book contains 9-14 weeks with 2-4 series of lessons. It is possible to join the course at any stage during its three year cycle.

**Available from:** Manna Books and other Christian bookstores.

Published by TnT ministries, Christian Focus Publications

See more information and samples at <http://www.tntministries.org.uk/ontheway3-9.php>

**Cost:** Approximately \$20 per book

#### What users say:

Several small churches around NZ are using these books:

- The teacher's book is easy to pass around if there is a roster of leaders.
- Lessons are set out with a clear aim, Bible study notes for the teacher, a lesson plan, suggestions for visual aids and three age-appropriate activities for 3-5s, 5-7s and 7-9 year olds.
- Tend to be paper type activities - colouring, puzzles etc and need to be supplemented with games and other crafts to make a more interesting and complete lesson.

- The three year syllabus is printed at the beginning of each book and it's good to see the overview of Bible stories and themes covered.
- You can choose a series to fit church themes and mix and match between the three years.

**Mustard Seeds**  
<https://www.mustard-seeds.net/>

Produced by TNT MINISTRIES. This is a new downloadable resource- Search, Download, Teach.

Pay for the lesson units you order from £4 for 4 lessons, some free samples  
 Many to choose from to create your own year's programme

**What users say:** St Saviour's, Christchurch: Mustard Seeds is an incredibly valuable resource for us in our children's ministry. It is very faithful to Scripture, affordable, well-written and easy to use. We love the way the material can be adapted for the wide range of ages from 3 to 11. Being in New Zealand, we really appreciate being able to simply download the material off the website, rather than getting books in.

## C. Theme based units

The following resources are from 4 weeks to 10 weeks in length. Leaders can pick and mix themes and topics to fit into each term's calendar. Some, especially the newer curricula under *Others*, require audio visual equipment and often assume at least an hour's programme including a large group, high impact session before dividing into small age specific groups. Expectations of the number of children, available leaders, amount of preparation and cost may be beyond all but our larger churches. But again any resource is a tool for ministry with children and can be adapted to suit your situation.

### What users say:

Leith Valley Presbyterian has used CEP resources over the last 8 years and seen their Sunday school grow from just a handful to about 40 children.

Fran Dawson, their dedicated children's ministry leader, comments:

- I initially used the *kids@church* material but I had to adapt it a lot to make it work for our structure of beginning together and then dividing into groups. The 3 levels' material and themes did not always match up.
- Now I use *KidsPlus* where each programme is based on a theme e.g. TV/Computer/Being Archaeologists/Sports teams/Survival etc which gives a bit of X-factor!
- There are suggestions for group time for each of three age groups 5-6's, 7-8's, 9-10's, which suits us as we break into groups after large group time.
- Has lots of suggestions for games and crafts
- It takes a bit of work to adapt it to fit the time we have available because it's designed for use as a holiday or after school programme. We pick and choose activities and often replace suggested activities with other things sourced from books or the internet.
- Lots of craft ideas.
- We like the child's take home pack that the children receive each week

## EXTRAS!

CEP also produce other teacher resources on Christmas, Easter, Great Ideas, Fantastic Crafts, Fantastic Games, Talks for Kids, Timeline Posters, Visual Aids packs and CD rom. ## 2. GOSPEL LIGHT

[www.gospellight.com](http://www.gospellight.com)

Packs of this curriculum are available in some NZ Christian bookshops or search online stores such as Fishpond [www.fishpond.co.nz](http://www.fishpond.co.nz) and The Book Depository [www.bookdepository.co.uk](http://www.bookdepository.co.uk) (both have free postage!). Gospel Light also produces a series of "Big Books" on many topics to complement lessons: The Big Book of Crafts, Games, Skits and Puppet Plays, The Big Book of Science, The Big Book of Bible Facts etc

**What users say:** Rob Key from Hornby Presbyterian has used a couple of Gospel Light curriculum:

- **'Agents in Action'** was a ball. Good resources, a good range of activities, great songs to go with it on CD and only \$70 from Fishpond (online store).
- **'Rock Solid Kids'** on the life of the Apostle Paul was also great.

Flagstaff Presbyterian got a whole Gospel Light kit for a bargain:

- We used the whole term programme initially, then over the years have been able to go back to it and find appropriate stories/activities to support our different themes. It was something different.
- Includes Big colourful pictures, Timeline, Teaching manual, Big colouring book, Big Book of Bible puzzles, CD
- Have used the colouring and puzzle book heaps.

St Heliers Presbyterian has used Gospel Light's **"Journeys with Jesus"**.

Says Jill Kayser, volunteer leader: I think this is the best curriculum to introduce Jesus' life and stories to kids. It is very easy to follow, has a great range of art, drama, games etc. to choose from to reinforce the message.

### 3. THE JESUS STORYBOOK BIBLE CURRICULUM

<http://www.jesusstorybookbible.com/>

This curriculum has 44 lessons and goes with the very successful *Jesus Storybook Bible* by Sally Lloyd-Jones, which beautifully retells some of the Bible's best known stories and weaves them altogether to tell God's Big Story.

*"There are lots of stories in the Bible, but all the stories together tell one Big Story: The Story of how God loves his children and comes to rescue them. It takes the whole Bible to tell this Story. And at the centre of the Story, there is a baby."*

Children will love the vivid illustrations and animated videos that bring to life Bible stories from both the Old and New Testament, all pointing to Jesus - and what that means for them!

**Suitable for:** recommended for 4-7 year olds (adaptable for older children too – see review below)

**Includes:**

- The Jesus Storybook Bible hardcover edition
- The Jesus Storybook Bible Audio CD Set (3 Discs)
- DVD ROM containing 44 complete printable lessons with teaching notes based on material from Timothy Keller, memory verses, and four-color children's handouts with take-home notes, 44 animated bonus videos

**Available from:** Bible Society <http://www.biblesociety.org.nz/shop>

To receive the special discounted price just quote: **"PCANZ: Special Church discounts on Jesus Story Book Bibles"**

**What users say:**

Highgate Presbyterian used The Jesus Storybook Curriculum kit in 2013/14.

Judy Goroncy shares: The focus of this curriculum is to teach 'the Story beneath all the stories in the Bible'. I cannot recommend this curriculum highly enough. Too often, our children's programmes are so geared at entertainment, or are so diluted

of content, that the true message of what Christ has done is lost. This programme takes seriously God's love, our sin, and that we need Jesus, our Saviour, to redeem us and our lost world.

- *The Jesus Storybook Bible (JSBB)* includes 21 stories from the Old Testament, and 23 from the New Testament.
- Each week's accompanying lesson is based on one of the stories and follows a similar structure – a time to recap previous stories, a relevant activity, the story time (which can be presented by either the teacher, or with the use of the accompanying DVD/CD), unpacking the story (technically called exegesis), reflection on Jesus's location in the story, prayer, learning the memory verse, and completion of a hand-out.
- One of the real strengths and blessings of the programme is that it is concerned at every point to teach the great Story of the Bible rather than focus attention on presenting a series of seemingly unrelated ancient religious stories that remain largely unconnected. In other words, every part of the JSBB is concerned to point to the One who is God's principal revelation; namely, Jesus. 'Every story in the Bible whispers his name'.
- Programme geared more towards children aged 4–7. However, up to 10 year olds all seem to benefit from and enjoy it too.
- Accounting for holidays and other 'interruptions', the curriculum takes about a year-and-a-half to work through.
- The lessons are easy to prepare, are clearly set out, and come with various helpful media aids.
- Because the lessons are presented chronologically, connections can be made between the stories and so enable children – and their teachers too – to build on what they have learnt in previous weeks.
- Hand-outs provide not only an opportunity for children to revisit the teaching and memory verses, but also assist and encourage parents/caregivers to be aware of what the kids are learning at Sunday School, and so encourage further discussions about the Story beyond the Sunday morning.
- Curriculum only used the JSBB but we encouraged children to bring their own Bibles to look up the verses/stories. We believe that it is vital for children to have an understanding that all the stories come from the 'actual' Bible and that they become familiar with and are able to look up books, chapters and verses in their own Bible.
- Children are enjoying opportunities to present what they have learnt to the rest of the congregation, typically through the Sunday morning service. They have presented an overview of the key events and people in the Old Testament so far, in the form of drama, Bible readings, memory verses and song – all bearing witness to God's Great Rescue Plan in Jesus.

#### 4. ORANGE- FIRST LOOK, 252 BASICS, XP3

[www.whatisorange.org](http://www.whatisorange.org)

3 levels of curriculum:  
Preschool (First Look)  
Primary (252 Basics)  
Intermediates and Youth (XP3)

This curriculum is designed around the belief that church and family need to partner very intentionally to provide the greatest and longest lasting impact on the next generation. This includes Sunday curriculum for children and adults

**Cost:** Annual subscription depending on number of church members. All resources are downloaded from the website. While this curriculum is probably not 'user friendly' for most NZ churches, the principles of 'thinking orange' are!

**Book:** "THINK ORANGE" (about \$40 at Manna Books) is a great read if you want to be challenged to 'imagine the impact when church (YELLOW) and family (RED) collide.' What results is ORANGE and the belief that "Two combined influences make a greater IMPACT than just two influences."

Cheryl Harray, Kids Friendly Advisor is impressed with the thorough thinking behind the five Orange Essentials, described fully in "Think Orange." In particular, the work on #2 Refining the Message comes up with Key truths based on Matthew 22:34-41 (Jesus summary of all God's law into 2 sentences) The whole Orange curriculum is built around this with parents and teachers having the same end goal of helping children experience **wonder, discovery** and **passion**. This simple framework, described below, could be used as a guide in other curriculum too.

PRESCHOOL	CHILDREN	YOUTH
God made me	I can trust God no matter what	I am created to pursue an authentic relationship with my Creator
God loves me	I need to make the wise choice	I belong to Jesus Christ and define who I am by what He says

## 6. DVD based series

Many curricula include digital resources and there is plenty that can be accessed free through the internet. Some curricula use DVDs as the main teaching/input. This can be helpful for small teams who struggle to recreate dramas, songs, stories. Remember however that children grow in faith through good relationships so beware of using too much technology. Ensure there is plenty of interaction in the programme too. Below is a brief description of a few that may be worth investigating.

### STORYKEEPERS

[www.storykeepers.com/stories](http://www.storykeepers.com/stories)

**STORYKEEPERS** is an animated video series (13 episodes) that tells the story of Ben the baker, and his wife Helena, who are Christians in Rome 64 A.D. They have adopted four children whose parents were lost during the fires set by Emperor Nero. The hope-giving stories and parables of Jesus are told in the course of their exciting adventures.

Some teaching resources have been developed (DVD plus handbook kit) and from the website it is obvious that the appeal of these excellent videos is to all ages.

Designed for kids in preschool to year 5. **Connect** available for older children.

**Cost:** \$10 (U.S.) per unit - Digital downloadable resource

Highgate Presbyterian is enjoying using this curriculum in 2016.

They say: Our children actively engage with this programme. They love the videos and they seem to be retaining the stories from week to week. The curriculum also

provides the focus for the adult worship as well, which is great for conversations between the adults and children after the service and at home. The 'Take-home' sheet for the families is appreciated by parents.

## E. Rotational Workshop Sunday school Model

[www.rotation.org](http://www.rotation.org)

This "curriculum" requires a slightly different way of doing "Sunday School".

1. Classrooms become creative workshops e.g. Art, Drama, Games, Computer, Video, cooking etc.
2. Different classes rotate to different workshops each week.
3. All the workshops teach the same Bible story for a 4 to 6(or less) week "rotation."
4. Teachers stay put in the workshop teaching the same lesson each week to a new group.
5. The story gets explored and learned in-depth through a variety of creative teaching mediums.
6. The kids look forward to a different learning experience, teacher, and room each week.
7. The teachers don't have to plan a new lesson each week. Instead, they plan once every four or five weeks, modify their basic lesson each week for a slightly different age group, and get better and more creative as the weeks pass,--teaching in the workshop of their choice and preferred teaching style.

Kaila Pettigrove of Somervell Presbyterian discovered it on a trip to the United States and adapted it for their '**Triple S**' (Somervell Sunday School). "Our kids love it and more people are volunteering than ever before!"

"The **Workshop Rotation Model** (WRM) is based on the multi-intelligence educational theory that teaches in a variety of fun and engaging ways. The same Bible story or theme is taught for several weeks using different learning styles. Groups of children participate in workshops to engage with the story in creative ways. For example, when we taught the story of Joseph, we rotated the children through workshops as below":

Age	5-8 years	8-10 years
Week 1	Art	Drama
Week 2	Drama	Art
Week 3	Games	Cooking
Week 4	Cooking	Games

"The beauty of it is that each teacher/workshop leader only has to prepare one lesson and adjusts it for the age groups. We ran two workshops at a time with leaders teaching two weeks in a row."

"I was originally worried about needing more teachers, but because they only have to teach two weeks in a row AND they are teaching the same lesson and using their strengths, it's a lighter and more appealing commitment. For the first time people are coming up to me and offering to lead a workshop using their gifts. It's a wonderful way to get to know the adults in our congregation and the children have more adult friends now too. John Kernohan our session clerk and keen gardener ran a nature workshop where he taught children how to prune and talked about pruning our "bad habits" to make room for the fruit of the Spirit.

### **What do the children say?**

"I like the way we all get to do so many cool things. I like that it is not like school lessons. We do fun activities not activity sheets," says David.

### **What do the teachers think?**

"It's fun and manageable so we now have far more volunteers involved in the Sunday children's ministry and better bonds are being created between Triple S children and our congregation," says Dorothy.

"I loved illustrating how God uses crushing times (like in Joseph's life) to bring about blessings. I gave each child a ziplock bag of Oreo cookies and asked them how they felt? As expected they expressed joy. I then took a wooden spoon and crushed them and asked the children how they felt. They said sad. We then used crushed Oreos to make icecream sundaes. The children LOVED it and it made the other group of children determined to come back the next Sunday!"

### **Are the children actually learning?**

"I like that it's really clear what we are learning about. We have been learning what it means to be a disciple of Jesus and that the best way to "fish for people" is to share God's love," says David.

"This way of teaching has positively impacted our attendance with children wanting to return the next week to do the activity their sibling did the week before!" says Kaila.

### **What type of commitment is required?**

This model does ideally require a coordinator. However, if your church doesn't have a children's minister or Sunday School coordinator then it could be managed by a very competent committee.

Although this is an American curriculum, it is available online and can be downloaded in minutes. The initial outlay is inexpensive, but there are photocopying costs and other creative materials to gather. If other churches are interested in trying this teaching method we could swap our units. The possibilities are endless.

#### What users say:

Carlton Johnston from St Johns, Arrowtown shares: We used TruBlessing curriculum with our preschoolers last year (2016) It is a digital based resource that covers a year. You download each weeks lesson (which can be customised) or as many as you desire along with the additional resources provided (songs, colouring pages, picture images for the stories, cut-out pages etc).

We love the way that the lessons engage 3-4 year olds in God's big picture story while at the same time learning about specific stories from the Bible. It is a creative and interactive style of learning and includes a number of resources. There is a monthly take home resource for parents to deepen and develop what their kids are learning at church. Our pre-schoolers loved the lessons and activities.

### DWELL

<http://dwell.faithaliveresources.org/>

**Includes:** Preschool 1 year cycle of reusable 36 lessons,

All other grades (K- 8) six-session leader guides – undated, flexible, include lesson plans, song lyrics and printable pages- available digitally for overseas Children's leaflets only in hard copy

**Suitable for:** Preschool (1 year cycle) then K- 8 grades – 4 age groups

**Cost:** Pre-schooler reusable resource kit US\$130

K-8 grades - each 6 week lesson leaders guides (digital) US\$9 Six units per year  
Supplementary resources to buy- Song CD, Story symbols, devotional, God's Big Story Cards, plus some free downloadable resources to support leaders

**What users say:** *A couple of churches were wondering about using this resource, so Kids Friendly reviewed it in Jan 2017:*

Great context of Bible stories as part of God's BIG story- invites response through wondering questions and activities. Well thought out progression through ages and stages and learning styles with appropriate and interesting activities and extra resources- love the names of each level which reflect the stage: Play, Imagine, Wonder, Marvel, Dive Curriculum is soundly based in reformed theology.

Each Bible story has a simple story symbol that relates to the family box activity 'God's Big Story Cards' This could be bought as a stand-alone resource for families even if not using the curriculum- another Faith at Home resource- Yay!

Downside- The different age groups are not doing the same topic (spiral curriculum) This definitely makes it more difficult to mix and match/combine for small composite groups- the reality in many of our churches. Children's leaflets are only available in hard copy (expensive) Not essential for lessons though and the digital leaders guides are reasonably priced and accessible.

## G. Resources for PRESCHOOLERS

Kids Friendly observes that many churches run wonderful mid-week music and movement programmes or playgroups and there can be a natural invitation and interest from parents to bring the children along on Sunday mornings too. A preschool programme that happens in the same space, with some of the same routines and leaders can make this transition really easy and give more opportunities to share Bible stories, activities and prayer with the families.

## H. Resources for Older Children

Kids Friendly is regularly asked "Have you got any suggestions for material for our older children, say 10-12 year olds? They are losing interest in the content/activities of the programme with the younger children."

This 'tween-age' has always been a challenge as they grow up and move from accepting everything on offer to wanting to question, discuss, contribute and see enough reasons to get out of bed and come!

Relationships with leaders and peers become vitally important for this age group. They need a safe place to question and explore how the God of the Bible stories relates to their everyday life.

## 3. Other Helpful Resources

### A. Bibles

Every curriculum should be centred around opening God's Word with children. It is important to use a Bible with language that children at different ages and stages can understand. There are many suitable Bibles available. Visit your local Christian Bookshop to look at the selection.

Prices below are from the Bible Society store [www.biblesociety.org.nz](http://www.biblesociety.org.nz). For a comparison search online stores such as Fishpond [www.fishpond.co.nz](http://www.fishpond.co.nz) and The Book Depository [www.bookdepository.co.uk](http://www.bookdepository.co.uk) (both have free postage!).

Below are some Bibles that Kids Friendly recommend:

### 1. Children's Story Book Bibles

#### THE BEGINNERS BIBLE

The Beginners Bible is an ideal first Bible for young children with over 90 favourite Bible stories coming to life through simple text and colourful, fun illustrations on every page.

A good Bible to present to parents when a baby is baptised or as a 'graduation' gift from churches' preschool community outreach ministries (e.g. mainly music)

**Cost:** \$29.99 (bulk deals available from Bible Society)

#### THE RHYME BIBLE STORY BOOK

By Linda Sattgast, published by Zonderkids

Boys and girls - even toddlers - love the soothing sound of rhyme! 35 classic Bible stories retold in lilting verse and rollicking, read-aloud rhyme.

Again, Kaila Pettigrove comments: *"The rhymes are not forced and very clever. The paraphrase often gets right to the heart of the story... even some of the more difficult ones."*

**Rhyme Bible cost:** \$36.99

**Rhyme Bible for Toddlers cost:** \$24.99

## THE JESUS STORYBOOK BIBLE

By Sally Lloyd-Jones, published by ZonderKids

The Jesus Storybook Bible is brilliant to read to your child/group of children or all ages. Everyone will be wanting to hear more about the God who loves them and comes to rescue them.

The stories are woven together beautifully with this recurring theme and as Sally says: "It takes the whole Bible to tell this story. And at the centre of the Story is a baby. Every story whispers his name.... He is like the missing piece in the puzzle....the Child on whom everything would depend..."

A great Bible for parents to read to their children at home, a chapter a day- at teatime, bedtime, breakfast - whatever time works best.

Kaila Pettigrove of Somervell Presbyterian recommends this Bible: *"It's a paraphrase version, but it's done with such love and sensitivity! My seven-year-old commented that, 'This Bible is great for children of ALL ages because it explains the WHOLE Bible in a way that is very easy to understand.' She's right! It doesn't just give a paraphrased version of a few selected stories, but it starts from the beginning and puts everything into the context of Jesus sent to us because God loves us!"*

You can order these by [downloading the order form](#) and emailing it to [orders@biblesociety.org.nz](mailto:orders@biblesociety.org.nz) or fax it to (04) 805 0134, or phone 0800 424 253.
